

The Breakthrough Performance  
Group Presents the:

**BPG**

# Lean Gold Practitioner Certification Course

Increase Profits, Reduce Lead Time and Optimize Cycle Time,  
Eliminate Waste, Increase Capacity, Improve Quality!

## Course Overview:

LEAN is a systematic, continuous improvement approach that drives value to the customer through flow improvement and by eliminating unnecessary or "non-value added" processes.

## Who Should Attend:

All Executive or Management level leaders, Operations Management, Quality Management, Engineering, Information Technology, Product/Service Development, Finance, Supply Chain, Logistics, Manufacturing, Marketing professionals challenged to improve their business units. All who are seeking to expand their career possibilities, job training, and professional development. Dislocated Workers facing career changes, WIA, NEG, TAA and Veteran Funded students supported.

**Why BPG:** Our seasoned instructors are Lean Six Sigma Master Black Belts with years of real world experience. They have delivered successful results to all types of organizations including both public and private companies across a wide variety of industries and government agencies.

## 3 Day Course

**Breakthrough Performance Group, LLC**  
**513.543.0816**  
**[www.breakthrough-performance.com](http://www.breakthrough-performance.com)**

## Attendees will learn:

This 3-day Course Covers: Introduction to VSM (Value Stream Mapping), 5S (Sort, Set-in-Order, Shine, Standardize, Sustain) Kaizen, 3P (Production Preparation Process), Cellular Operations, Jidoka (Built-in-Quality), Lean Manufacturing/Enterprise, Pull Systems, Kanban, Mistake Proofing, Quick Changeover, TPM, TOC (Theory of Constraints) and the Lean Leadership Paradigm and Culture.

While originally developed for manufacturing, these methodologies have been successfully applied to concepts in services and transactional environments with great success.

- Lean focuses on eliminating waste in processes (i.e. the waste of work in process and finished goods inventories).
- Lean is not about eliminating people. Lean is about expanding capacity by reducing costs and shortening cycle times between order and delivery date.
- Lean is about creating a significant competitive advantage in the marketplace
- Lean is about understanding what is important to the customer.

BPG's LEAN training and certification course focuses on process improvement and elimination of waste as the key attributes in streamlining operations and improving the overall bottom line.
