UNIVERSITY

## Make It **More.**

### Black Belt

January 28 - April 7, 2020 | Tuesdays | 5:30-8:30 p.m.

This blended learning course covers the knowledge necessary to lead a Lean Six Sigma Black Belt process improvement project team and work with a Champion Team in identifying opportunities for improvement within an organization. This course includes an in-class project and exam. Upon completion of the course work, students are awarded their Lean Six Sigma Black Belt certification.

Topics covered include:

- The Six Sigma business management methodology and the role of a Black Belt project leader
- Working within an organizational structure to help guide Six Sigma Champions in improvement opportunity identification and project selection
- Leading the Six Sigma process improvement team through the DMAIC methodology, tools, and concepts
- Planning and lead a Six Sigma pilot implementation and how to sustain the improvements over time
- The basic LEAN principles
- Team dynamics and team building
- Leadership and Cultural Change for Lean Six Sigma
- Cost of Poor Quality and Return on Investment analysis methods
- Statistical Analysis Tools

Cost of 11 week course: \$3,995

### White Belt

February 13, 2020 | Thursday | 8 a.m.-Noon

Individuals learn what Lean Six Sigma is, how it was developed, and the tools it uses to streamline and improve both manufacturing and service industries. The White Belt class is complimentary and open to the public.

### Green Belt

February 27 - April 9, 2020 | Thursdays | 5:30-8:30 p.m.

This blended learning course covering the knowledge needed to participate as a Lean Six Sigma Green Belt on a process improvement project team or to lead a Green Belt process improvement project. This course includes an in-class project and exam. Upon completion of the course work, students are awarded their Lean Six Sigma Black Belt certification.

Topics covered include:

- DMAIC Methodology
- Project Definition and Charter
- Voice of the Customer
- Process Mapping
- Statistical Process Control
- Root Cause Analysis
- Solution Development & Implementation

Cost of seven week course: \$2,795
